Assessing the Impact of Individual Risk Factors in Predicting Surgical Outcomes of Ventral Hernia Repair: An ACHQC Study

Principal Investigator: Delaney Ding
Grant award: \$2,500
University of Florida Medical Student Summer Research Program
Scholarship 2021-present

Trends and Outcomes of Three Approaches to Minimally Invasive Repair of Small Ventral Hernias: An ACHQC Analysis

Glycated Hemoglobin is a Poor Predictor of Adverse Outcomes in Diabetic Patients Undergoing Ventral Hernia Repair. An ACHQC Study

Principal Investigator: Melanie Vargas
Grant award: \$2,000

Ongoing Research

1. TAP block in Ventral hernia repair Using Vizient Database 2020-present
Current Stage: Manuscript submitted to *Hernia*
2. Robotic Ventral Hernia Repair. Systematic Review and Meta-analysis. 2020-present
Current stage: Data extraction
3. Glycated Hemoglobin Is A Poor Predictor Of Adverse Outcomes In Diabetic Patients Undergoing Ventral Hernia Repair. An ACHQC Study. 2021-present
Current stage: manuscript submitted to Surg Endosc
4. Trends And Outcomes Of Three Approaches To Minimally Invasive Repair Of Small Ventral Hernias. An ACHQC Analysis. 2021-present
Current stage: manuscript submitted to Surg Endosc
5. Minimally Invasive Surgery In The Elderly: Systematic Review And Meta-analysis. 2021-present
Current stage: Data analysis and formulation of guideline statements
6. Assessing the Impact of Individual Risk Factors in Predicting Surgical Outcomes of Ventral Hernia Repair: An Analysis Using the ACHQC Database. 2021-present
Current stage: Abstract submitted to 2022 Americas Hernia Society Meeting
7. The Effect Of Tobacco Use On Inguinal Hernia Repair Outcomes 2022-present
Current stage: Abstract submitted to 2022 Americas Hernia Society Meeting
8. Do preoperative optimization cut-offs for ventral hernia repair disproportionately affect different races? 2022-present
Current stage: Data requested
9. Predictors of perioperative venous thromboembolism in patients undergoing ventral hernia repair using ACHQC database 2022-present
Current stage: protocol writing
10. Synthetic mesh, biologic mesh, or primary repair of incarcerated abdominal wall hernias in contaminated fields 2022-present
Current stage: manuscript submitted to Journal of Trauma and Acute Care Surgery
