

William D. Duncan, MS, PhD

ORCID: 0000-0001-9625-1899

LinkedIn: <https://www.linkedin.com/in/biduncan>**EDUCATION**

2014	PhD Philosophy	University at Buffalo, Buffalo, NY
2004	MS Computer Science	Clemson University, Clemson, SC
1995	BA Philosophy	Western Carolina University, Cullowhee, NC

ACADEMIC HONORS

2006-	NSF Fellow in University at Buffalo Integrative and Graduate Education and Research Traineeship (IGERT) program in Geographic Information Science (http://www.ncgia.buffalo.edu/giscience/)
2014	
2002-	NSF Fellow in Clemson University Graduate K-12 Math and Science Program
2003	(http://www.clemson.edu/gk12/)
1995	Graduated BA cum laude with honors

ACADEMIC APPOINTMENTS and POSITIONSs

2022-present	Clinical Associate Professor	University of Florida College of Dentistry Gainesville, FL
2016-present	Affiliated Faculty	University at Buffalo Department of Philosophy Buffalo, NY
2016-present	Adjunct Professor of Health Informatics	IU School of Informatics and Computing at IUPUI Indianapolis, IN
2016-2019	Assistant Professor of Oncology	Roswell Park Comprehensive Cancer Center Buffalo, NY
2015-2016	Assistant Research Scientist	Regenstrief Institute Indianapolis, IN
2014-2015	Postdoctoral Researcher	University at Buffalo Research Foundation Buffalo, NY
2010-2014	Graduate Research Assistant	University at Buffalo School of Dental Medicine Buffalo, NY
2006-2010	Graduate Teaching Assistant/Instructor	University at Buffalo Department of Philosophy Buffalo, NY

PROFESSIONAL EXPERIENCE

2019-2022	Software Developer	Lawrence Berkeley National Laboratory Berkeley, CA
2019-2019	Senior Scientific Programmer	University at Buffalo Department of Biomedical Informatics

2006-2006	Software Developer	Buffalo, NY Ettain Group Charlotte, NC
2001-2006	Software Developer	General Software Systems Telecommuter, company based in Fort Lauderdale, FL
2000-2001	Software Developer	Buncombe County Government Asheville, NC
1999-2000	Software Developer	Drake Software Franklin, NC

MILITARY EXPERIENCE

1989-1991 US Army Cannon Crew Member (Rank E-3)
Served in Desert Storm, Honorable discharge
Awards: Army Commendation, Army Achievement, Southeast Asia Service, and Kuwait Liberation

ACADEMIC SERVICE

Students Supervised

2014-2018 Suhila Sawesi, Indiana University-Purdue University Indianapolis
PhD committee member (PhD awarded)
2014-2020 Kanitha Phalakornkule Indiana University-Purdue University Indianapolis
PhD committee member (PhD awarded)

Workshops and Conference Organized

Co-organizer 13th International Conference on Biomedical Ontologies
September 2022, University of Michigan, Ann Arbor, Michigan, US

Co-organizer OBO Core Workshop
11th International Conference on Biomedical Ontologies
September, 2020, Virtual Conference

Co-organizer COB as a Community Resource
Intelligent Systems for Molecular Biology
July, 2020, Virtual Conference

Co-organizer 10th International Conference on Biomedical Ontologies
July 2019, University at Buffalo, Buffalo, New York, US

Co-organizer 2nd International Workshop on Oncology and Ontology
9th International Conference on Biomedical Ontologies
August 2018, Oregon State University, Corvallis, Oregon, US

Co-organizer 1st International Workshop on Oncology and Ontology
8th International Conference on Biomedical Ontologies
September 2017, New Castle, UK

CURRENT RESEARCH

Oral Health and Disease Ontologies (<https://github.com/oral-health-and-disease-ontologies>)

Summary: The goal of this project is to develop an ontological framework to represent oral conditions, and use this ontology to integrate data from multiple dental providers. To date, we have successfully used the Oral Health and Disease Ontology to integrate dental records from 99 dental practices that used two different electronic medical record systems.

AWARDS

1. Travel Award (\$1000), February 2018: *Ontology of Informed Consent: An Approach to Specimen and Data Sharing*
2. Travel Award (\$500), October 2017: *Microbiology for the CTSA 2017*
3. Travel Award (\$500), April 2018: *Ontologies for Stem Cells and Stem Cell Lines*

PRESENTATIONS

1. *Ontologies in Medicine*
University of Florida Spatial Biology Retreat (October 2022, Gainesville, FL)
2. *Using Semantic Technologies to Link Metagenomic Data for the National Microbiome Data Collaborative*
2020 U.S. Semantic Technologies Symposium Series (March 2020, Raleigh, NC)
3. *Ontologies for Neoplasms*
2nd International Workshop on Oncology and Ontology (August 2018, Corvallis, OR)
4. *Towards an Ontology for Representing Malignant Neoplasms*
1st International Workshop on Oncology and Ontology (September 2017, New Castle, UK)
5. *Applied Ontology: Metaphysics Meets Informatics*
Western Carolina University (November 2014, Cullowhee, NC)

6. *Representing Intracoronal Tooth Restorations in the Ontology for Oral Health and Disease*
ICBO 2013: 4th International Conference on Biomedical Ontology (July 2013, Montreal, CA)
7. *Expressing Basic Formal Ontology in Type Predicate Logic*
University of Essex Logic Colloquium (May 2011, Essex, UK)
8. *Using Ontological Dependence to Distinguish Between Hardware and Software*
Artificial Intelligence and Simulation of Behavior Conference (April 2011, York, UK)
9. *Making Ontological Sense of Hardware and Software*
Institute for Geoinformatics, International Research Training Group, University of Muenster (June 2010, Muenster, Germany)

TEACHING EXPERIENCE

1. *Spring 2019:* Guest lecture in Department of Biomedical Informatics, University at Buffalo – Cancer Data Systems
2. *Fall 2018:* Guest lecture in Department of Biomedical Informatics, University at Buffalo – Dental Informatics Overview
3. *Spring 2018:* Guest lecture for Clinical and Translational Science Institute - A Brief Introduction to Description Logics and OWL
4. *Fall 2017:* Guest lecture in Department of Biomedical Informatics, University at Buffalo – Roswell Park Comprehensive Cancer Center Biomedical Data Science Shared Resource
5. *Spring 2017:* Guest lecture in Department of Biomedical Informatics, University at Buffalo – Description Logics
6. *Spring 2011:* Teaching Assistant, University of Buffalo, Research Ethics
(Instructor: David Triggle, graduate course)
7. *Spring 2010 - Fall 2010:* Teaching Assistant, University of Buffalo, Introduction to Philosophy (Instructor: Michael McGlone)
8. *Spring 2009:* Teaching Assistant, University of Buffalo, Research Ethics
(Instructor: David Triggle, graduate course)
9. *Fall 2007 - Spring 2008:* Instructor, University of Buffalo, Critical Thinking
10. *Summer 2007:* Instructor, Western Carolina University, Critical Thinking
11. *Spring 2004:* Lab Instructor, Clemson University, Introduction to Computers

12. Fall 2003: Teaching Assistant, Clemson University, Operating Systems
(Instructor: D.E. Stevens)

13. Summer 1998: Instructor, Western Carolina University, Introduction to Philosophy

GRANT SUPPORT

Current Grant Support

Co-investigator

Collaborative Research: Ranges: Building Capacity to Extend Mammal Specimens from Western North America

2228392 NSF 05/01/23-04/30/27

PI: Guralnick, Robert

The goal of this project is to establish the Ranges Digitization Network (“Ranges”). The Ranges network will digitize traits from over one million mammal specimens in 19 U.S. natural history museums, and produce datasets that are in standard format and easy to find in online biodiversity platforms. This will allow researchers to build better baselines for biodiversity and improve predictions of how mammals respond to changing environments.

Development of Opportunities for Research (DOOR) in Dental Schools: Future Academic Interdisciplinary Workforce and Collaborators for the National Dental Practice-Based Research Network (PBRN)

1U01DE033262-01 NIDCR 09/03/23-06/30/28

PI: McNeil, Daniel

The University of Florida (UF) College of Dentistry and East Carolina University (ECU) School of Dental Medicine are collaborating to establish an academic multidisciplinary practice-based research network within and between their respective dental schools to provide clinical faculty, residents, and predoctoral students with a competency-based training program for skills development, research mentorship, and participation in practice- oriented clinical research.

Completed Grant Support

Software Developer

National Microbiome Data Collaborative (NMDC)

DE-AC02-05CH11231 DOE BER 07/01/19-09/30/21

PI: N. Mouncey

The vision of the NMDC is to empower the research community to harness microbiome data exploration and discovery through a collaborative and integrative data science ecosystem. The NMDC will address fundamental roadblocks in microbiome data science through implementation of guiding principles to make data findable, accessible, interoperable and reusable (FAIR).

Co-investigator

Immuno-Oncology Translation Network: Data Management and Resource-Sharing Center at Roswell Park

U24 CA232979 NCI 09/30/2018-06/30/2023

The Data Management and Resource-Sharing Center (DMRC) serves as an administrative and analytic hub for translational studies in the NCI-supported Immuno-Oncology Translation Network (IOTN).

Data Analyst

Programming Hematopoietic Stem Cells for Long-Term Targeted T Cell Therapy of Patients with Relapsed Ovarian Cancer

C030158 New York State Department of Health 10/01/2015-09/30/2019

PI: Adekunle Odunsi

Summary: The study investigates how to harness the immune system in order to improve outcomes for ovarian cancer patients.

Data Analyst

Administrative Supplement to SPORE

P50 CA159981 NCI 07/01/2016-06/30/2019

PI: Adekunle Odunsi

Summary: The goal of Administration Core is to ensure that translational goals of the RPCCC-UPCI Ovarian Cancer SPORE is to provide leadership, direction and administrative services for the purposes of enhancing research productivity and maintaining a stimulating translational research environment for ovarian cancer.

Co-investigator

Predicting Response to Ovarian Cancer Adjuvant Chemo via Electronic Medical Data

IRG-14-194-11 American Cancer Society 06/27/17-12/31/17

PI: Eng, Keven

Summary: This project uses treatment information in the Roswell Park's electronic medical record system to analyze outcomes for ovarian cancer patients.

Co-Investigator

Leveraging electronic dental record (EDR) data for clinical research

5U19DE022516-03 National Dental PBRN, NIDCR 01/01/2015 - 06/30/2018

PIs: Gilbert, Gregg and Thyvalikakath, Thankam

Summary: The major goal of this project is to explore the feasibility of using electronic dental records data to assess outcomes of posterior composite restorations (PCR) and tooth loss following root canal treatment (RCT).

Consultant

PRO: A Protein Ontology in OBO Foundry for Integration of Biomedical Knowledge

2R01GM080646 NIGMS 09/01/2015 - 08/31/2019

PI: Smith, Barry – Subcontract

Summary: The goal of this project is to develop and test an ontological framework for the description of proteins that will allow more precise annotation and more accurate prediction of their biological properties.

Postdoctoral Researcher

Enhancing the Cell Ontology in Support of CyTOF and Flow Cytometry

N/A NIAID 06/01/2014 - 04/15/2015
 PI: Diehl, Alexander – Subcontract, HIPC
Summary: This project is part of the Human Immunology Project Consortium (<http://www.immuneprofiling.org/hipc>), and supplements the “Vaccination and Infection: Indicators of Immunological Health and Responsiveness” project (NIAID 1U19AI090019). The project aims to further develop the Cell Ontology for use in characterizing data obtained from CyTOF and flow cytometry.

Postdoctoral Researcher

Analysis of restoration longevity in elderly patients using electronic dental records
 5R03DE023358 NIDCR 06/01/2014 - 04/15/2015
 PI: Schleyer, Titus
Summary: This project addresses how patient-, tooth- and restoration-level factors affect the longevity of amalgam and composite restorations in an elderly patient population in two large HMOs.

Research Assistant

PRO: A Protein Ontology in OBO Foundry for Integration of Biomedical Knowledge
 2R01GM080646 NIGMS 09/01/2013 - 05/31/2014
 PI: Smith, Barry – Subcontract
Summary: The goal of this project is to devise and test an ontological framework for the description of proteins that will allow more precise annotation and more accurate prediction of their biological properties.

Research Assistant

Data extraction using electronic dental records in dental practice-based research networks
 5R21DE021178 NIDCR 09/01/2012 - 05/31/2014
 PI: Schleyer, Titus
Summary: This project proposes to test the feasibility of a generalizable approach to extracting clinical data from electronic dental record systems to support practice-based, clinical research in dental PBRNs.

Research Assistant

INPC Ontologies Project
 N/A Regenstrief Foundation Innovation Grant 09/01/2013 - 05/31/2014
 PIs: Ruttenberg, Alan and Schleyer, Titus
Summary: The Indianapolis Network for Patient Care (INPC) is a statewide health information exchange that collects data from 25,000 physicians, 94 hospitals, 110 clinics, surgery centers, and other healthcare organizations. This project investigated how constraints at the class level can improve data quality by converting a small subset of INPC data into an ontology. Additionally, queries were developed that probed the ontology for answers to research questions.
