

JORGE FRIAS-LOPEZ

9132 SW 41st Ln
Gainesville, FL 32608

Department of Oral Biology
University of Florida, College of Dentistry
PO Box 100424
1395 Center Drive
Gainesville, FL 32610-0424

ACADEMIC AND RESEARCH EXPERIENCE

- | | |
|--|--------------|
| • University of Florida, Associate Professor | 2016-present |
| • Forsyth Institute, Associate Member of the Staff | 2013-2016 |
| • Forsyth Institute, Assistant Member of the Staff | 2010-2013 |
| • Forsyth Institute, Assistant Research Investigator | 2008-2010 |
| • Harvard School of Dental Medicine, Lecturer | 2008-2016 |
| • Massachusetts Institute of Technology, Research Scientist | 2004-2008 |
| • University of Illinois Urbana-Champaign, Postdoctoral Research Associate | 2001-2004 |
| • University of Illinois Urbana-Champaign, Postdoctoral Research Associate | 1997-1998 |
| • University of Barcelona, Assistant Professor | 1994-1997 |

EDUCATION

- Ph. D. Microbiology, University of Barcelona. (Spain) 1992
- B.Sc. Biology, University of Barcelona. Spain. 1987
- Agricultural Engineer. Polytechnic University of Catalonia. (Spain) 1998

AWARDS AND HONORS

- Vice-chair of the Department of Microbiology, Forsyth Institute, 2013-2016.
- Forsyth Institute John W. Hein Research Fellowship 2008-2010.
- Award to the best poster presentation Spanish Society of Periodontology. 2000.
- Especial award to the best Ph.D. thesis of the year. University of Barcelona. 1993.
- Fellowship from the Spanish Government, for the development of an apparatus to measure biodegradable dissolved organic matter in waters. 1992-93.
- "ERASMUS" Fellowship, N:PIC F-8256 from the European Community for an internship at the Centre des Sciences de l'Environnement (Université de Metz, France) 1989.
- Fellowship from the Regional Catalan Government, CIRIT. 1988.
- Undergraduate scholarship from the Spanish government. 1982-1987.

GRANTS AND CONTRACTS

- **Frias-Lopez, J.** NIH/NIDCR Grant Number: 2R01DE021553-05A1. 04/01/2016 – 03/31/2021. Dysbiosis of the subgingival microbiome: host-microbial metatranscriptomic analysis during periodontal disease progression and post periodontal treatment. The goal of this project is to understand the cross-talk between organisms and host and what they are doing during periodontitis progression to develop specific treatments against disease. \$3,722,559
- Teles, Flavia., **Frias-Lopez, J.** and others. NIH/NIDCR Grant Number: R01DE024767. 1/1/2015-12/31/2018. Targeted Cultivation of New Periodontal Pathogens. The goal of this project was to culture oral organisms that were not cultured before. \$1,104,464.
- Cavanaugh, C., Borisy, G., **Frias-Lopez, J.** Harvard Catalyst. Human Oral Microbiome: Collaboration Opportunity Funded Projects. 2015. Combined Oligotyping and Metagenomic Approaches for a High-Resolution View of the Tongue Microbiome. \$50,000.
- **Frias-Lopez, J.** Colgate-Palmolive Grant. 2015-2016. The development of clinically relevant preclinical oral biofilm models using a transcriptomics approach (Continuation). \$200,872.
- **Frias-Lopez, J.** Colgate-Palmolive Grant. 2013-2014. The development of clinically relevant preclinical oral biofilm models using a transcriptomics approach. \$225,570.
- **Frias-Lopez, J.** Colgate-Palmolive Grant. 2012-2013. Assessing the potential of different products to inhibit plaque formation in vivo: their effect on the metagenome and metatranscriptome of a dental plaque. \$386,109.
- **Frias-Lopez, J.** NIH/NIDCR Grant Number: 1R01DE021553-01. 09/03/2010 – 08/31/2014. Metatranscriptome of the Oral Microbiome During Periodontal Disease Progression. The aim of this project is to characterize the microbial communities and their gene expression profiles associated with the progression of periodontal disease on specific sites. \$2,461,856
- Borisy, G., **Frias-Lopez, J.** and others. NIH/NIDCR Grant Number: 1RC1 DE020630-01, 09/22/09 – 08/31/11. Combinatorial Imaging of the Oral Microbiome. The aim of this project is to develop Combinatorial Imaging for the simultaneous imaging of up to 28 oral taxa. Aim 1 is to optimize a combinatorial imaging protocol for labeling oral microbes. Aim 2 is to validate the method on a 12-species biofilm. Aim 3 is to validate the Combinatorial Imaging on dental plaque.
- **Frias-Lopez, J.** Colgate-Palmolive Grant. 2009-2010. Identifying potential targets to inhibit plaque formation and establishment of the pathogenic community studying gene expression patterns in a multispecies biofilm model. \$116,000.
- Klaus, J, Fouke, B. and **Frias, J.** ISRS OC 2004. The Effects of Pollution on the Microbial Ecosystem and Health of *Diploria strigosa*. \$10,000.
- **Frias-Lopez, J.** and others. Grant PROFIT from the Spanish government for the study of key microorganisms in the formation of dental biofilm and screening for new products with potential antiplaque activity. 2000. \$ 55,000.
- **Frias-Lopez, J.** and others. Grant CDTI from the Spanish government for the study of key microorganisms in the formation of dental biofilm and screening for new products with potential antiplaque activity. 1999- 2000. \$427,000.
- Kaplan L.A., **Frias-Lopez, J.**, and others. Grant from the American Water Works Association Research Foundation (project 729-91) for the standardization of a new method to measure the biodegradable organic carbon in waters. 1991-1993. \$348,343, with a total of \$148,051 in AWWARF support and the balance as in-kind contributions.
- Lucena, F., **Frias-Lopez, J.** and others. Contract with Empresa Metropolitana de Sanejament, S.A. Studies on bacterial and viral fecal contamination on the coast of Barcelona. 1991-1992
- Lucena, F., **Frias-Lopez, J.** and others. Contract with the company “Empresa Bioibérica, S.A”. Study of the effect of fertilizers on the increase of bacterial biomass in water. 1990.

PATENTS

Lyndsay Schaeffer-Korbylo and **Jorge Frias-Lopez**. 2013. Oral care compositions containing deoxy sugar antimetabolites. Patent number 61792953.

Jorge Frias-Lopez. 2015. Compositions and methods for detecting and treating periodontal disease. Patent number 62152579.

TEACHING EXPERIENCE

- Associate Professor: Department of Oral Biology. University of Florida. 2016-Present.
- Lecturer: Department of Oral Medicine Infection and Immunity. Harvard School of Dental Medicine. 2008-2016. Microbiology.
- Assistant Professor: Department of Microbiology, University of Barcelona. 1994-1996. General Microbiology. Applied Microbiology.
- Visiting Assistant Professor: course on environmental management. Microbiological parameters in waters. 1994-1995.
- Visiting Assistant Professor: Master courses on waste management. Biological Treatment of industrial waste. (Palau de les Heures, Fundació Bosch i Gimpela). 1994.
- Visiting Assistant Professor: course for techniques in water treatment plants. The microbiological pollution. 1994.
- Visiting Assistant Professor: Master courses on water techniques. Aquatic Microbiology. (Polytechnic University of Catalonia and University of Barcelona). 1993-1994
- Teaching assistant: Master courses on water techniques. Aquatic Microbiology. (Polytechnic University of Catalonia and University of Barcelona). 1990-1992.
- Teaching assistant: Course on physicochemical and microbiological analysis of waters. Catalan Society for Biology. 1988.
