

## VITA

Name: Robert Thomas Guenther, Ph.D., ABPP<sup>(RP)</sup>\*

Office Address: Department of Clinical and Health Psychology  
College of Public Health and Health Professions  
University of Florida – Health Science Center, PO Box 100165  
Gainesville, Florida 32610-0165  
Clinic Telephone: (352) 265-0294  
Clinic Fax: (352) 265-0096  
E-mail: [rguenthe@php.ufl.edu](mailto:rguenthe@php.ufl.edu)

### EDUCATIONAL HISTORY

Ph.D., clinical psychology, awarded December 1988 at Arizona State University.

M.A., clinical psychology, awarded May 1983 at Arizona State University.

B.A., psychology, awarded May 1979 at Purdue University.

Associate Degree, electronics engineering technology, awarded September 1972 at I.T.T. Technical Institute, Fort Wayne, Indiana.

### PROFESSIONAL LICENSE

\*Board certified in Rehabilitation Psychology by the American Board of Professional Psychology awarded August 25, 2001 (diploma number 5428).

Florida Licensed Psychologist, #PY 6137, January 27, 2000 to present.

Michigan Licensed Psychologist, #6301007987, November 8, 1991 to November 8, 2000 (permitted to expire after move to Florida).

Michigan Limited License Psychologist, #6301007987, October 31, 1990 to November 7, 1991 (supplanted by full licensure).

Missouri Licensed Psychologist, #PY01416, May 25, 1990 to January 1, 1991 (permitted to expire after move to Michigan).

## PROFESSIONAL ORGANIZATIONS

Member, American Psychological Association, Division 12 (Clinical), 22 (Rehabilitation), and 38 (Health).

Member, Society of Behavioral Medicine.

Professional Member, Florida Bioethics Network.

## EMPLOYMENT AND TRAINING HISTORY

September 20, 1999 to Present: Clinical Professor, Department of Clinical and Health Psychology (C&HP), College of Public Health and Health Professions, University of Florida, Gainesville. I have served the Health Psychology Area as Area Head, acting as program coordinator and liaison between the health psychology faculty, graduate students, interns and post-doctoral fellows as they coordinate with our Department. I have also represented the clinical faculty on the Executive Committee of our Department. I was responsible for the provision of psychological services for the various solid organ and bone marrow transplant programs throughout Shands Hospital at the University of Florida. I am now primary psychologist for the Adult Acute Neurotrauma Service in Shands Hospital. In addition, I continue to provide consultation and liaison services to hospital inpatients with referrals coming from every hospital unit including the Burn Unit, general surgical units, and the Psychiatry Unit. I have served as co-instructor for the graduate course Introduction to Psychological Interventions, required of all C&HP graduate students. Clinical teaching/case supervision is provided to graduate students, interns and postdoctoral fellows.

- ◆ Health Psychology Area Head, 2009 to 2012.
- ◆ Director of Inpatient Consultation and Liaison Services, 2005 to present.
- ◆ Director of Transplant Psychology, 2007 to June 2012.
- ◆ Director of Continuing Education, 2010 to 2016.
- ◆ Associate chair of the APA Rehabilitation Psychology Division (22) Committee for Social and Ethical Responsibility, September 2000 to September 2001.
- ◆ Member of the UFHealth Shands Ethics Advisory Committee, 2001 to present.
- ◆ Ethics Consultant on rotation to UFHealth Shands Inpatient Services, October 2013 to present.
- ◆ Member of the Health Science Center IRB, September 2002 to July 2005.
- ◆ Psychologist to the Adult Acute Inpatient Neurotrauma Service for TBI and SCI.
- ◆ Member, University of Florida Crisis Management Team.
- ◆ Affiliate clinical professor, Department of Orthopaedics, UF College of Medicine.

Average hours worked per week: 60.

Department Chair: Glenn Smith, Ph.D., ABPPP(cn), Prof., Clinical & Health Psychology ((352) 273-6556).

September 1990 to September 14, 1999: Staff psychologist, Department of Rehabilitation Psychology and Neuropsychology, Rehabilitation Institute of Michigan (RIM), the Detroit Medical Center. Activities include provision of full range of psychological services to inpatients admitted to Spinal Cord/Orthopedic/Amputee unit. Diagnostic groups include spinal cord injuries, traumatic head injuries, limb amputations, total joint arthroplasty, multiple sclerosis, Lupus, cerebrovascular accidents, chronic pain, severe orthopedic injuries, arthritic conditions, burns, and conversion disorders. Services provided include: initial emotional status, personality, and neuropsychological evaluations; ongoing psychological treatment for difficulties with adjustment process; behavior management; consultation to the

rehabilitation team regarding patient management issues and program development. Additional responsibilities and accomplishments include:

- ◆ Chairperson of the RIM Ethics Committee, member DMC Ethics Steering Committee.
- ◆ Leadership role in bringing RIM into compliance with the patient rights and organizational ethics standards of JCAHO and CARF, 1995 and 1999.
- ◆ Assistant professor, Department of Physical Medicine and Rehabilitation, Wayne State University School of Medicine; Assistant adjunct professor, Department of Psychology, Wayne State University.
- ◆ Primary peer reviewer of manuscripts for the *Archives of Physical Medicine and Rehabilitation*.

Average hours worked per week: 50-60.

Department Chief: Robin Hanks, Ph.D., ABPP (CN); (313) 745-9763.

September 1989 to August 1990: Postdoctoral fellowship with the Department of Health Psychology, University of Missouri - Columbia. Emphasis of training upon provision of services to patients on the inpatient rehabilitation units with diagnoses of traumatic brain injuries, cerebrovascular accidents, spinal cord injuries, cerebral aneurysms, cancer, electrocutions, burns, and other disabling conditions. Responsible for: initial neuropsychological screening; ongoing team consultation; TBI program coordination regarding neuropsychological issues; full neuropsychological evaluations; individual and family psychotherapy; behavior management; assessment of post-discharge need for supervision, ability to return to work, and likely level of long-term functioning; supervision of psychology interns. Psychologist to the Cardiac Transplantation Team, providing psychological evaluations of patients being considered for heart transplantation.

Average hours worked per week: 60-70.

Inpatient services supervisor: Stephanie Hanson, Ph.D., ABPP ((352) 273-6214).

Transplant evaluation supervisor: Robert Frank, Ph.D., ABPP ((330) 672-2220).

September 1988 to August 1989: Clinical psychology internship, general/medical psychology program, Baylor College of Medicine. Provided consultation/liaison services to general medical, neurology, and psychiatry inpatients throughout The Methodist Hospital complex, Texas Medical Center. Responsible for: neuropsychological, behavioral, and personality evaluations in consultation with physicians and multidisciplinary treatment teams treating neurology/neurosurgery, psychosomatic medicine, orthopedic, general surgery, and psychiatry inpatients; consultant and therapist to the psychiatry inpatient group psychotherapy program; long-term outpatient psychotherapy through the Baylor Psychiatry Clinic. Average hours worked per week: 60-70.

General/medical psychology program supervisor: Robert Harper, Ph.D. ((713) 798-6379).

### **AREAS OF CLINICAL SPECIALIZATION**

- ◆ Initial psychological evaluations and treatment of organ donor candidates, organ recipient candidates, and post-operative transplant recipients.
- ◆ Inpatient general adult consultation and liaison services.
- ◆ Rehabilitation psychology.
- ◆ Behavioral, neuropsychological and personality assessment.
- ◆ The treatment of anxiety disorders.
- ◆ Sexual dysfunction and marital therapy.
- ◆ Family therapy.
- ◆ Goal-oriented group therapy (divorce adjustment, stress management).
- ◆ Process-oriented group therapy (adult inpatient groups, interpersonal process outpatient groups).
- ◆ Strategic short-term psychotherapy.

## AWARDS, HONORS, AND EDITORIAL ACTIVITY

Awarded the Danforth Graduate Fellowship, 1979.

Student editor for the *American Journal of Community Psychology*, 1982.

Former editor of the APA Division of Rehabilitation Psychology (Division 22) newsletter, *Rehabilitation Psychology News* from September 1991 to September 1993.

### **GRANT-RELATED ACTIVITIES**

Weber, B. A (PI), Dyadic vs Informational Support after Prostate Cancer (R01 CA158395-01A1). Submitted to the National Cancer Institute, in March 2011 with \$1,098,750.00 total budget for 4 years. R. Guenther was to serve as safety officer on this grant, receiving 5% coverage for duration, responsible for directly triaging, managing, and following up on all patients suspected of being at risk of suicide. Application was not funded.

Mann, W. (PI); Marsiske, M. (Co-PI); Winkler, S. (Co-PI). Effectiveness of the Rural Veterans Tele-Rehabilitation Initiative for Veterans with Traumatic Brain Injury, (PT090654) submitted as an Advanced Technology/Therapeutic Development Award application on October 2009. The budget was 316,284.00 for five years. R. Guenther was to serve as clinical advisor for cognitive rehabilitation interventions administered via tele-health technology. Application was not funded.

Guenther, R.T. (PI); Rodrigue, J.R.; Schold, J. Psychological Predictors of Organ Transplant Outcome: Database Development. Submitted as a Recovery Act Limited Competition: NIH Challenge Grant in April, 2009 with \$979,925.00 budget for 2 year project. Application was not funded.

“Quality of Life Therapy for HCV Adults Awaiting Liver Transplant (QOL-HCV Trial).” Submitted January 2006 by James Rodrigue Ph.D., PI, The Transplant Center, Beth Israel Deaconess Medical Center, Harvard University School of Medicine, in response to PAR-04-082, “Small Clinical Grants in Digestive Diseases, Nutrition, and Obesity (R03).” R. Guenther was to serve as local PI for that component of the project to be completed within the UF Liver Transplant Program. Application was not funded.

“Randomized Controlled Clinical Trial to Improve QOL in Patients Awaiting Lung Transplant.” Submitted May 2005 by James Rodrigue, Ph.D., PI, The Transplant Center, Beth Israel Deaconess Medical Center, Harvard University School of Medicine. R. Guenther was to serve as Local PI on NIH R01 clinical trial application. Application was not funded.

Local PI on Greenwall Foundation grant application, "Public Solicitation of Organ Donors: A Survey of Attitudes among Transplant Professionals, Transplant Patients, and the Public." National PI: Dr. James Rodrigue, Ph.D., The Transplant Center, Beth Israel Deaconess Medical Center, Harvard University School of Medicine. R. Guenther was to serve as local PI for UF component of this project. Application was not funded.

Guenther, R. *No pain, no gain: A novel approach to pressure sore prevention*. Submitted to and funded by the American Association of Spinal Cord Injury Psychologists and Social Workers, to the amount of \$19,685 awarded September 1995, project completed April 1, 1999. Project resulted in development of a commercially available microprocessor-based battery powered monitor for pressure relief behavior among wheelchair users with neurologic conditions (technical description available upon request).

Guenther, R., Dijkers, M., Cushman, L., & Lakey, B. *Handicap and quality of life after spinal cord injury: A longitudinal study*. Subgrant under the South-Eastern Michigan Spinal Cord Injury Model System Grant, submitted to US Department of Education, National Institute for Disability Rehabilitation and Research, November 25, 1994, funded for five year cycle beginning September 1996. This particular project component was subsequently discontinued due to funding reduction.

### MISCELLANEOUS

Guest appearance on *Health Matters – Spinal Injuries: Recovery of Function*. A production of WTVS-TV and Medstar Communications Inc., 1994. Aired periodically on Channel 56 WDET, a Public Broadcasting Service (PBS) television station, Detroit.

Guest appearance on *Science Frontiers: Car Crash - The Driver*. A Darlow Smithson Production for Channel 4 Television and The Learning Channel, 1998. Aired periodically on The Learning Channel.

Principal planner for the national ethics conference, *Ethics, Managed Care and the Rehabilitation Patient: Utilizing Resources to Optimize Patient Outcomes*. November 7, 1997, Dearborn, Michigan.
