PROFESSIONAL EXPERIENCE

CVS/CAREMARK, Orlando, FL

2008 – present

Pharmacy Manager

Achieve company focused pharmacy metrics in sales and service, while driving genuine patient care, training/developing pharmacy technicians, and building a profitable business.

- Lead pharmacy team to achieve Target's goals and mission through outstanding service, achievement of pharmacy metrics, and implementation of company initiatives.
- Daily activities include: Overseeing prescription processing, ensuring staffing and training of pharmacy team member, maintain minimal risk through execution of company best practices.
- Pharmacy District Resource: Act as a resource and leader to other district stores to drive pharmacy metrics, communicate new roll outs and process changes, and maintain quality and efficiency standards.
- Field Implementation Team: Travel to stores within US to implement new pharmacy operating system, teach/train/develop teams to be successful in new workflow and guest-driven culture, establish positive and motivational environments.
- APPE coordinator: Act as a liaison between pharmacy schools and Target stores to place APPE students on rotation.
- Student recruiter: Assist in career days at multiple pharmacy schools, assess talent and interview potential candidates for intern and pharmacist positions.
- Specialty Pharmacy Pilot: Roll out new specialty program to area stores, build relationships with provider offices to establish Target as the preferred specialty pharmacy
